

Although the companies, the unions and the CIA press have done their best to obscure the SUB pay picture, the facts are clear:

*Twenty-five thousand GM workers have already exhausted their SUB pay, or will exhaust it within the next two weeks. These are mostly workers laid off nearly continuously since last January's First Great Oil Hoax. Before Oil Hoax No. 2 has gotten into high gear, January 1975 layoffs are up to an announced level of 100,000; another 30,000 workers will be off SUB pay by early February. The GM sub fund, drained to \$100 million, cannot last past the end of April. Its collapse will throw at least 40,000-50,000 more workers onto the welfare rolls.

*Chrysler's fund is in even worse shape--only \$80 million in the till. With 60,000 Chrysler workers on layoff, the fund will run out in late February or early March--even earlier if Chrysler is bought by Rocky's Arab sheikhs and shipped to Iran.

*Ford is slightly more solvent--\$150 million in the SUB fund and "only" 40,000 layoffs--a situation which could change rapidly.

*The steel industry is the worst situation of all. Jay Rockefeller's United Mine Workers strike has triggered the cut-off of all steel SUB pay. As the United Steel Workers contract makes clear, since the UMW is striking against the steel companies' own "captive" coal mines, no SUB pay will be forthcoming. Tens of thousands of steelworkers will be practically devoid of income and will be immediate targets for slave labor schemes, if the CIA's UMW strike lasts much longer.

BORDER COPS HARASS LABOR PARTY

WINDSOR, Ontario, Nov. 30 (IPS)--U.W. Labor Party organizers from Buffalo and Detroit successfully crossed into Windsor and Toronto, Ontario, Nov. 29, for a full day's organizing in which they sold several hundred copies of New Solidarity to industrial workers in the Canadian Golden Horseshoe. Extensive press coverage of the North American Labor Party electoral campaign in St. Catherine's and Toronto had forewarned border officials that they would not be able to prevent Labor Party entry into Canada.

In the final days before yesterday's Toronto and St. Catherine's municipal elections, Labor Party organizers had fought a running battle with customs officials and border police seeking to protect Rockefeller's forced slave labor plans in Canada from Labor Party exposure. The border campaign was directed by the U.S. Law Enforcement Assistance Administration (LEAA).

In Ontario, agents have been scurrying around to prevent North American Labor Party candidates Rick Saunders in Toronto and Lucylle Boikoff in St. Catherine's from repeating the 14 per cent vote of Alan Levinson in Vancouver three weeks ago.

The head of the Canadian Department of Manpower and Immigration Andras recently announced that this department's mobility program "will now force the unemployed to take the jobs we offer them...even 100 miles away." At the same time all efforts have been made to turn Canadian electoral politics into a sick joke; Andras' slave labor program was never submitted before the Canadian Parliament. Notorious agent and LEAA sidekick in the New Democratic Party Martin Schulman has come out in public support of Rosy the Clown for Mayor of Toronto.

In Canada, the Canadian Manpower (relocation) boards have succeeded in sucking in the Communist Party and the entire trade union apparatus, with the exception of the isolated resistance of the Quebec Federation of Labor. Under Andras' program slave laborers will be forced across provincial borders and will be pulled from the U.S. and from around the world to meet the labor skill requirements of Canada's redevelopment project slave labor camps.

CIVIL DEFENSE PERSONNEL TRAINED BY CIA/LEAA

Nov. 30 (IPS)--Civil emergency defense personnel around the country are currently being sent through the same CIA training mills which spawned and "educated" the murderous Green Berets, known for their slaughter of Vietnamese peasants.

The director of the Pueblo, Colorado Civil Defense Agency, Sam Musso, told IPS this week that their new Industrial Defense Coordinator, Air Force Lt. Col. Harry Haney, is uniquely qualified for his post, having just returned from the Army's Defense Civil Preparedness Agency (DCPA) Staff College at Battle Creek, Mich. Musso was trained at the school for civil disturbances at Fort Gordon, Georgia three years ago, which is also responsible for training the Law Enforcement Assistance Administration (LEAA), the National Gestapo. He was followed by a contingent of Pueblo police and fire officials who trekked to Fort Gordon and other area officials who went to the DCPA College at Battle Creek.

According to Musso, the Military Police School at Fort Gordon, which runs the LEAA civil disturbance counterinsurgency course for LEAA agents, also runs the Schools on Emergency Planning and Industrial Defense for the DCPA, such as the one at Battle Creek. In the past, Fort Gordon has been responsible for training the CIA police Gestapos of Brazil, Indonesia, Vietnam and other Third World countries.

An official in the Emergency Services Division of the Michigan State Police, the coordinator of the State's emergency
