

country. The aiding and abettance of IPS's crimes by their Bonn government underlings and the related media cover up of the relevant facts, have sabotaged any such prospects to date.

Among the many illegalities pertaining to the BKA's involvement in this West Berlin caper, is the fact that it constitutes a violation of the Four Power Agreement respecting the status of West Berlin, as juridically the BKA is, in spite of itself, a West German body, and has no right to operate outside the territory of the Federal Republic. Very curious indeed. Loyal stalwarts in Bonn, not only protect and harbor terror controllers like Peck etc., and their networks within

the BRD, but go out of their way to free IPS-controlled terrorists abroad.

On another concluding count, the West German government's adumbration in stupidity braying the Atlanticists' new "modified" international law line, sanctioning armed interventions, contains an irony that the junior Yankees of the Rhineland may have overlooked. By current West German definition of law, for example, the German Democratic Republic would be fully entitled to direct an armed raid on the BRD to secure the return by force of individuals including those convicted of murder in the GDR, who reside in West Germany, harbored by a government which refuses to extradite murderers.

## Agents Move To Cover Tracks

# Interpol-IPS Running Boston Terrorism

July 10 (NSIPS) — The July third arrest of terrorist Joseph Aceto for possession of dynamite outside a Massachusetts State police barracks and the subsequent recovery of nearly 2,000 pounds of dynamite by local officials confirms that the Institute for Policy Studies and the Treasury Department's domestic Interpol, the Alcohol Tobacco and Firearms Division jointly control the wave of terrorist attacks that have wracked the Boston area since early May. Early press reports on the seized dynamite cache, which have since been removed from all news media, confirm that the same dynamite supply was used by a single terrorist pool in bombings claimed by both the "Sam Melville-Jonaton Jackson Brigade," born out of the IPS controlled New England prison reform movement and by the ROAR-related South Boston Defense League.

Shortly after this crucial evidence emerged, ATF director Rex Davis personally deployed to Boston on July 8 to announce "Operation Cue," a new plan to bolster the ATF deployment in Boston from 43 to 78 in-place agents and effectively take control of the terrorist roundup away from local Massachusetts state and city police officials who have carried out the significant arrests of terrorists in the last week. At the Davis press conference July 8, a high Massachusetts state official revealed that "the FBI and ATF had Aceto and three others under surveillance for several weeks, but if it wasn't for the State Police, the Topsfield Massachusetts barracks would have been blown up ... The AFT and FBI were content to just surveil."

Davis' move is a direct attempt to block the release of any further details of the IPS and ATF control of the Boston terrorist networks. Such information would have an immediate national impact.

### **Left-Right Hoax**

Following the arrest of Aceto, Boston police seized 600 pounds of dynamite at the home of Everett Carlson who is being held on \$300,000 bail. Both Aceto and Carlson, as well as Richard Picciarelli and Edward Gullion, two others who were with Aceto on July 3 and are still being sought, are ex-prisoners from Maine's Thomaston prison and members of the

Massachusetts Statewide Coalition Against Racism (SCAR). Both Aceto and Carlson had in their possession literature from the Sam Melville-Jonathon Jackson Brigade terrorist organization — the same IPS-created grouping which carried out a bloody courthouse bombing in Boston on May 11.

SCAR was founded and run by IPS Director Marcus Raskin's New England outpost, the Cambridge Policy Studies Institute through the New England Prisoners Association (NEPA). An umbrella group includes most of the counter-gang formations that were slated to carry out the Levi-IPS July 4 terrorist scenario, NEPA has its policy formulated by MIT linguistics brainwasher Noam Chomsky and IPS-fellow, "ex" Weatherman, Eric Mann.

All the elements uncovered in this week's roundup of Boston terrorists expose the guts of an operation which is striking similar to one in the Reading, Pa. area. The Reading operation was exposed last year by the U.S. Labor Party as a major supply depot for both right and left wing terrorists through a single joint pool of the Ku Klux Klan and the Maoist Revolutionary Union. Dynamite from Reading was used in the Pontiac Michigan bus bombing in 1972. Despite ample evidence from informants within the Reading network, the ATF which provided some of the money and explosives failed to arrest or move to shut down the networks.

As in the Reading case local prisons are a prime spawning ground for the terrorist footsoldiers. Through the use of behavior modification, sensory deprivation and small group brainwashing techniques, prisoners are broken and turned into "revolutionaries" — exactly the process that produced the Symbionese Liberation Army (SLA) at the notorious Vacaville brainwashing center in California. Thomaston prison itself was investigated by the Maine Board of Corrections where the presence of cocaine and guns among prisoners was rampant a key element in recruiting prisoners to ATF controlled counter-gangs.

### **Who Protects Whom?**

There is no doubt that the terrorists were under the protection of the federal agencies that were allegedly investigating

them. Piciarello, one of the terrorists still being sought, was released from Thomaston on parole. It was expected that he would have been immediately picked up by Massachusetts police for outstanding bank robbery charges. The FBI stated that they had Aceto, Piciarello, and Gullion under surveillance for suspicion of bank robbery. Yet all these law enforcement agencies failed to make use of an obvious outstanding warrant.

Two weeks before the Aceto arrest, a similar arrest was made of Andrew Zuis, a 33-year old railroad worker and member of the anti-busing groups ROAR and the South Boston Marshalls, for possession of dynamite, pipe bombs and railroad flares. He was also linked to recent bombings against the Plymouth Rock landmark and a Bicentennial replica of the Boston Tea Party. With that kind of record, one would have expected law enforcement officials to throw away the key. Zuis however, has now been released on lowered bail after claiming that he had "found" the dynamite. He has also rescinded his own claims of membership in the anti-busing groups.

The widespread recognition by the Boston population of the connections between the right and left-wing terrorists acts that have escalated racial tension over the busing issue, are providing the context for uncovering IPS control over these right wing gangs as well. In response, spokesmen for the

South Boston Marshalls have been forced to claim that the South Boston Defense League does not exist. The "phantom" Defense League has however worked in open coordination with ROAR and had issued citywide leaflets threatening "outsiders" to stay out of South Boston.

#### **DiGrazia Handcuffs Police**

ATF head Rex Davis credited his decision to concentrate Operation Cue in Boston to the "tremendous cooperation among state, local and police officials, especially Police Commissioner DiGrazia." This week, DiGrazia, whose links to the CIA are a matter of public knowledge, moved to clear the field for the Interpol coverup and consolidation of the IPS terrorist network, with a renewed assault on police who are fighting the threatened budget cutbacks. DiGrazia brought disciplinary false arrest actions against two Boston officers in one case using the "reliable" testimony of a skid-row derelict.

Boston police officials have thus far capitulated to the DeGrazia-ATF takeover by protesting that they will not conduct any further arrests without the presence of a supervisor to avoid being charged with disciplinary actions.

With IPS terrorist networks still in place, a renewed "Bicentennial" activation of bombings and riots in the area under the control of ATF is an open possibility — as long as press coverups and DiGrazia reins on police continue.

## **IPS Activates Rand Scenario for "War of Nerves" In Preparation of Terrorist Onslaught**

This week Marcus Raskin's Institute for Policy Studies-linked New World Liberation Front (NWLFF) claimed to have planted two bombs in West Coast facilities owned by the Pacific Gas and Electric Company. According to the classic blackmail threat initially delivered by the Front and broadcast nationally, the explosions were set to go off sometime between July 6 and 10 at undisclosed plant sites. They have yet to go off, nor have any bombs been found by police at PGE facilities. The Front communique instructed Pacific Gas workers to leave their plants and not return to work. Although the power company has been a consistent terrorist target, plant security personnel found no bombs. Today over CBS radio a Front spokesman announced the actual intent of their threats: "just a war of nerves ... done as a diversion until we prepared other things."

Since January, the bombings of such power facilities have been promulgated by Rockefeller-controlled think tanks such as the Rand and MITRE Corporations, as well as "left" and

"right" credibility-bolstering press outlets — all in anticipation of the Institute-Rand "Nuclear Pearl Harbor" scenario activation. The NWLFF blackmail tactic employed this week is typical of the operating procedures drawn up in Brian Jenkins Rand study entitled "High Technology Terrorism and Surrogate Warfare." Rockefeller-affiliated press provocateurs like Washington Report, the monthly newsletter of the right-wing American Security Council cultivate and exacerbate the environment into which terrorist actions are introduced. The June issue of Washington Report printed that nuclear terrorism was possible through the bombings of power plants which would then spread radioactive materials into the surrounding area. Already in California, having been primed for the "terrorist" scenario so many times, a statewide apparatus was established under the Rockefeller-Energy Research and Development Administration (ERDA) engineered operating plan called "Nuclear Blackmail Emergency Response Plan."
