

## U.S. LABOR PARTY CAMPAIGN REPORT

# New York Telephone Involved In Assassination—Electoral Disruption Plot

Sept. 23 (NSIPS) — The following grid details the U.S. Labor Party's ongoing legal fight to maintain telephone service at its national campaign headquarters at the height of the Party's LaRouche-Evans campaign for the White House. As the grid documents, the New York Telephone Company's illegal disruption of USLP communications, in collusion with the New York State Public Service Commission, is one element of an international assassination and terror campaign by the Wall Street forces determined to block implementation of debt moratoria and the new world economic order — the program adopted in August by the Non-Aligned Nations of the Third World at the Colombo, Sri Lanka summit.

In a campaign statement released following New York Tel's illegal cutoff of all telephone service at the party's New York City headquarters on Sept. 16, Labor Party presidential candidate Lyndon H. LaRouche revealed the central elements of the Wall Street scenario. On the basis of information received from high-level diplomatic channels, LaRouche reported that "Henry Kissinger and the U.S. National Security Council are currently on an assassination binge with targets including several Third World leaders, and U.S. Labor Party presidential candidate LaRouche."

The targeted Third World statesmen have provoked the special hatred of Henry Kissinger and the forces of lower Manhattan for their leadership role in the Non-Aligned Nations' adoption of the debt moratorium and International Development Bank-type proposals at Colombo, according to the candidate. LaRouche asserted that as author of the IDB proposal, he shares Kissinger's special hatred.

The launching of the sky-jacking and bomb-murder of a New York City policeman by members of a fascist Ustashi organization based in Argentina was only one of several operations deployed by the enraged Kissinger against Yugoslavia, a leader

of the Non-Aligned, LaRouche said. "Miami-based gusanos have recently made an attempted assassination of Guyanese Foreign Minister Wills," he continued. "Interrogation of a CIA-linked operative, working under the cover of an ABC journalist, uncovered U.S.-directed assassinations scheduled to occur in Canada. Among the scheduled victims of (these) assassinations were Prime Minister Manley of Jamaica and Forbes Burnham of Guyana."

"The actions of the New York Telephone Company this week are a part of the international pattern of crimes launched by circles associated with Kissinger and elements of the National Security Council," LaRouche reiterated.

LaRouche reported that on the basis of the USLP's research into the background of executives and trustees of New York Telephone, and American Telephone and Telegraph, of which New York Telephone is a subsidiary, there can be no reasonable doubt that some of these executives were directly involved in this week's illegal actions against the Labor Party. He emphasized that given the circumstances, it is not possible that the affair is the responsibility of a few lower-level executives acting on their own.

Following through on state court battles detailed below, the USLP will next week bring into federal court a comprehensive civil rights suit documenting the conspiracy among the top echelons of Wall Street operating through International Telephone and Telegraph, ATT, and New York Tel networks to disrupt the USLP campaign. Through this suit, the Labor Party will seek to force federal prosecution of the conspirators, who are in criminal violation of Federal Elections Law 18 U.S.C. 601, which prohibits discriminatory interference in the electoral activities of a political party and carries penalties of up to \$10,000 in fines and two years in prison.

## Chronology

**Sept. 13:** Service on several telephone units at the U.S. Labor Party's national headquarters in New York City disrupted for several hours.

**Sept. 14:** Labor Party officials call New York Telephone to complain of the irregular cessation of service. NYT official David Cook threatens cutoff of all USLP phones, claiming an overdue bill of \$4,000.

\*Labor Party attorneys inform Cook that threats to terminate service and any such termination is in violation of the Federal Election Law, and that individuals responsible for illegal termination of service risk fines and jail sentences.

**Sept. 15:** Threats of cutoff of USLP phones continue from New York Telephone.

**Sept. 16:** Labor Party representatives and New York Tel officials meet. Division manager Brownlich admits that NYT has overbilled the Labor Party by \$5,000 in the single month of August, 1976. Brownlich, however, demands payment of overcharge and reiterates threat to terminate service.

\*USLP receives information from several high-level diplomatic sources that U.S. Secretary of State Henry Kissinger and the National Security Council have targeted for assassination pro-debt moratorium Caribbean leaders Burnham and Wills of Guyana and Manley of Jamaica, as well as USLP presidential candidate Lyndon LaRouche, author of the International Development Bank proposal adopted under their leadership at the Colombo Non-Aligned Summit in August. Hitmen for the assassination are to come from anti-

Castro Cuban exile terrorist groups. The sources report that Wills, Guyana's foreign minister, escaped a murder attempt by gunmen in Georgetown, Guyana last week.

\*At 4:30 EDT, NYT terminates service on all phones in U.S. Labor Party headquarters at 231 W. 29th Street in New York City.

\*New York State Public Service Commission advises New York Telephone executives that termination of USLP service is improper, informing them that they were placing themselves in criminal violation of the Federal Election Law with such action.

\*The USLP Washington, D.C. office receives death threat against LaRouche from Yippie Aron Kay. "I'm the guy who threw the pie at Moynihan (former UN Ambassador Daniel Moynihan, while he was campaigning in New York recently). The next one will be for LaRouche and it will have battery acid in it," Kay warned.

\*National Security Council's "Ex-CIA" agent Phillip Agee surfaces in Kingston, Jamaica and begins destabilization of Prime Minister Manley's government, giving the names of 12 alleged CIA agents operating in Jamaica.

**Sept. 17:** Judge Korn of the New York State Supreme Court in Manhattan grants a temporary restraining order against any cut-off in phone service to the Labor Party by the New York Telephone Company pending a full hearing on the facts at issue in a \$1 million civil damages claim filed by the USLP against NYT in state court.

\*New York State Public Service Commission officials order NYT to immediately restore service to USLP phone lines, on the grounds that the company had no legal right to cut service before the USLP's disputed bill was settled.

\*USLP officially notifies the Federal Election Commission of the New York Telephone Company's interference in the USLP campaign, noting that the action violates provisions of the Federal Election Law 18 U.S.C. Section 601.

\*U.S. Attorney Fisk is personally delivered USLP's complaint charging NYT with violation of the party's electoral rights under Title 18 USC Section 601; copies are sent by registered mail to Attorney General Edward Levi and President Ford.

\*USLP presidential candidate Lyndon LaRouche releases statement charging that New York Telephone's "unlawful action is part of a concerted international campaign aimed at sabotaging the news-gathering, political intelligence, and security activities of the Labor Committees, and sabotaging the U.S. Labor Party election campaigns" by creating "an

increased potential for successful assassination attacks against Labor Party candidates, especially presidential candidate LaRouche."

\*New York Telephone defies PSC and Judge Korn, and continues disruption of approximately 25 per cent of USLP phone service, including the New York State WATS line to Buffalo, on the eve of a scheduled LaRouche appearance in that city. NYT officials claimed that the interruptions are a repair problem associated with the restoration of service, but one Mr. King, a representative of the Public Service Commission, voiced the opinion that these developments are unprecedented.

\*The National Security Council-controlled Gusano terrorist group Omega 7, one of several terror gangs sued in recent destabilizations of the Caribbean, claims credit for the bombing of a Soviet ship docked in Port Elizabeth, N.J.

**Sept. 18-19:** LaRouche campaign appearances in Buffalo. Disruptions of USLP's New York headquarters telephone service, and USLP's crucial continental WATS network continue.

**Sept. 20:** Public Service Commission hearings between USLP and NYT on disputed billings begin. USLP attorney David Heller stressed the bad faith of NYT, pointing to the company's previous disregard for PSC rulings as well as its contempt for Justice Korn's restraining order. USLP Finance Director Stephen Pepper submits written testimony to PSC documenting the scope of New York Tel's failure to provide appropriate billing to the USLP, estimating that the company actually owes the party \$13,400.

\*New York Post reports that New York Telephone has overbilled New York City by \$500,000. City agencies were overbilled \$100 a month — in buildings that had burned down and been converted to parking lots two years ago.

**Sept. 21:** Public Service Commission hearings continue. William Kraft, PSC staff member appointed to mediate the hearings, admits that a standing liaison between the PSC and New York Tel's Revenue Department had been activated before Sept. 13 to discuss the USLP-NYT case.

**Sept. 22:** PSC determined that the USLP must pay \$20,000 in "bills" to NYT immediately or service can be terminated on the expiration of Judge Korn's temporary restraining order.

**Sept. 23:** Labor Party attorneys secure a continuance of Sept. 17 TRO, pending a Sept. 28 hearing on the Labor Party's \$1 million civil damages suit against NYT.

## Who's Who At The Telephone Company?

*Sept. 25 (NSIPS) — Using the recently released Carter and the Party of International Terrorism, and auxiliary sources used in the preparation of the brief, the U.S. Labor Party's legal staff has compiled a complete grid of connections between the Democratic Party and the top-ranking New York Telephone and American Telephone and Telegraph executives who are conspiring to disrupt USLP communications and set up assassinations of Labor Party candidates, including USLP presidential candidate Lyndon H.
