

LaRouche: British Intelligence Is Running An Assassination Operation Against Me

U.S. Labor Party chairman and presidential candidate Lyndon H. LaRouche, Jr. released this statement from Chicago, July 18. "Top-level British intelligence is running an assassination operation against me, which includes a massive national pattern of surveillance, terrorist deployments, and intimidation of personal political contacts. I personally know the names of the groups involved in this operation, and the names of many individuals in these groups.

"The British intelligence operation is being run in cooperation with Israeli intelligence and persons in the U.S. associated with the Anti-Defamation League, United Auto Workers, CounterSpy, and groups under the control of Ken Cockrel of the Detroit Chapter of the National Lawyers' Guild," LaRouche charged.

"Detroit is the nominal center for the expendable group which is being set up to take credit for the assassination, after it is conducted by professional hit teams. The operation includes lawyers deployed as 'cut-outs' to the operation," the presidential candidate added. Such lawyers provide crucial support to kidnappers and assassins, while maintaining an "independent" cover.

This is not merely an assassination operation against Lyndon LaRouche—an operation stretching up to corporate boardrooms—but the British, together with Israel,

are indicating their immediate preparation to launch massive terrorism in the United States in the same mode as has occurred in Europe in recent years. LaRouche explained.

The terrorism is planned to be a rerun of the Baader Meinhof and Red Brigades operations. Although it has a radical Israeli-tinged flavor, another crucial controlling element is the so-called Black International, the fascist Black Guelphs headed by Otto von Hapsburg and Archbishop LeFebvre. This is the same group which recently ran an unsuccessful coup attempt in Cyprus.

The motivation flows from the Bremen summit, intersects the collapse of a bank in Holland, and intersects the London-Israel squabble over whether or not Israel should immediately attack Syria, an attack which could precipitate World War III, stated LaRouche.

London views Lyndon LaRouche personally as very high in importance as a strategic enemy at this time. This fact has been communicated to LaRouche by high-level sources of different nations.

LaRouche requests that any corporate officer, official or executive approached with threats or slanders against him, or intimidations meant to dissuade them from meeting with the USLP leader, should immediately report to LaRouche's New York security office, (212) 563-8648. There, these reports will be gridded and turned over to responsible officials... The life which a corporate officer would so save may not merely be LaRouche's — it may be his own.

"We must root out this terrorist infrastructure now. I emphasize, I know the names of the groups involved. I know the names of various individuals in the groups. I know the key Detroit controller, and I know those behind the operation as a whole," LaRouche reiterated.

What Really Did, And Didn't, Happen At Bonn

An on-the-spot report from our correspondent there

This analysis of the July 16-17 heads of state summit at Bonn was filed by NSIPS's George Gregory from the West German capital.

Contrary to what many believed — including a few world leaders here at the summit of the seven leading capitalist powers — the Bonn meeting had essentially one, very simple purpose: to reeducate the President of the United States on the most important current policy questions.

The major issues had already been resolved. Most important was the far-reaching agreement for a new monetary system reached at the pre-summit-meeting in Bremen, attended by West Germany, France, Italy, and England. There West Germany's Chancellor Helmut Schmidt had successfully led the move to force that policy through over the objections of Great Britain. Then, before the Europeans were formally joined by the U.S., Canada, and Japan at Bonn, discussions between West German, French, and Japanese officials had

already determined the crucial portions of the Summit communiqué endorsing the development of nuclear power and tightening collaboration against terrorism (for details, see below).

What was left for the summit itself was to win Jimmy Carter over, to at the very least taking a stance of benevolent neutrality toward the Bremen monetary agreements and the "Grand Design" of trade and global development they portend. While the British and other press groaned that "nothing will come of this summit," Schmidt, France's Giscard, and their allies were eminently successful.

Carter found himself in an international environment different from any he had previously encountered. West Germany's Schmidt and Japan's Prime Minister Fukuda were particularly warm toward the President in their almost continuous consultations throughout the summit. Soon Carter began to echo his educators; in an informal speech during the conference weekend he emphasized the necessity for economic cooperation to prevent
