

that would cripple the opposition. Secondly, the aim was to destroy the United States. This is the key to all Britain's geopolitics.

2. Impose the New Dark Ages, by inciting wars, up to and including the risk of thermonuclear war, that would wipe out the possibilities of scientific progress and challenge to the British oligarchy for centuries to come."

#### **The Kennedy Death Plan**

"Kennedy is also a representative of the New Dark Ages," explained LaRouche. "Take his prize program, the Kennedy Health Plan. In reality, it's a death plan. It runs on the thievery and the conviction of the British health system. 'You're indulging the people,' the British exclaim to their American counterparts. 'You're using too much surgery, too many expensive machines, you're saving too many lives!'"

"The Kennedy death plan is an insurance plan. Well, guess what insurance companies are drooling to pick up this plan. The Sun Insurance Companies of Ontario — the very same financial interests who are linked to Kennedy family financial interests!

"This is corruption, but it goes further. Coordinating with Kennedy are Lazard Freres and their representative Felix Rohatyn with the complementary policy — municipal fiscal austerity, better known by its accurate name *genocide*. While Kennedy is selling health insurance, Rohatyn will be closing down the municipal hospitals and driving doctors out of business with artificially high malpractice insurance. When there are no hospitals in which to get your operation, how will you use your insurance? Who will keep the money?"

#### **Some People with Courage**

"The American people need some people who will certify that this candidate is correct," LaRouche concluded. "They need this shock to make sure that America gets rid of everything that smells like Kissinger and Kennedy, and to reorient American policy toward Bonn and Paris. Then we can move ahead toward the White House in 1981."

Besides Labor Party members from Baltimore, Washington, Philadelphia, New Jersey and New York, the heaviest representation was from universities and the Republican Party. Republican attendees included three former Congressional candidates, two Washington, D.C. central committee members and one nationally known Republican. A telegram of support for LaRouche's role in raising the appropriate issues in the 1980 race was received from a member of the Republican National Committee.

The event was also attended by several independent businessmen, a number of Muslims, some government workers, and one union leader. Telegrams came from fraternal Labor Parties in Mexico, South America, and Europe, as well as from other prominent Republicans, businessmen, Midwest labor leaders, and one national black organization.

Debra Hanania-Freeman, Congresswoman-elect and contestant to the 7th Congressional District, concluded the evening with a short report on the fight to unseat vote-fraud perpetrator Parren Mitchell through the same kind of culture shock LaRouche outlined as necessary to save the nation. Freeman also conducted the fundraising, which netted several thousand dollars for the newly established Citizens for LaRouche.

### **LaRouche's adversaries—and competitors**

*Presidential candidate Lyndon H. LaRouche has distinguished his rival candidates and potential candidates as "competitors" — those with a muddled and/or potential commitment to the American System of industrial growth — and "adversaries" — those committed to the destruction of the American System on behalf of Great Britain. A scorecard on some of the leading contenders:*

#### **Competitors**

**Ronald Reagan.** The former California governor is the acknowledged front-runner for the GOP nomination. Presently calling for industry-labor-farmer alliance to begin the dismantling of "Big Government." The question for Reagan: he has 57 advisors, at least 56 of them dead-ringers for Milton Friedman.

**Incumbent Jimmy Carter.** That Carter has come as far as he has is a testament to the power of the presidency for forced human development. But the fact remains that unless he is dragged into full cooperation with the European Monetary System, the Carter Administration will remain the slow road to thermonuclear war.

**John Connally.** On the stump in 1977, Connally was one of the few who immediately denounced James Schlesinger's no-energy program as the antithesis of the American tradition of technological progress. Like his old pal LBJ, Connally's biggest problem is an inferiority complex about Harvard intellectuals.

**Robert Dole.** Ford's would-be veep is a candidate in search of a program and issue. His education in the Hamilton-Carey tradition of political economy which produced Lincoln and the original GOP could turn the Kansas Senator into a serious candidate — as it could for more than one Republican hopeful.

**Gerald Ford.** Conventional opinion in Washington is that the former President will not face primaries again and has no real chance to win the nomination unless the convention deadlocks. Currently on fiscal austerity rampage with 95 percent of the GOP.

#### **Adversaries**

**Ted Kennedy.** Little brother wants to rewrite the Constitution as well, cf. Project '87. Teddy favors a piecè-by-piecè approach to make beggars opera social-fascism the law of the land. Meanwhile is getting ready to make a big splash in the 96th Congress, and is circling over Carter like a vulture.

**Alexander Haig.** Frontman for Henry Kissinger and the British aristocracy, paperclip NATO commander Haig in the White House is a guarantee of Third World War.

**Jerry Brown.** The "Zen Governor" from California now wants a constitutional convention mandating a balanced budget, permanent federal tax-and-budget-cutting process. Why not a House of Lords and retroactive naming of Milton Friedman as a Founding Father?
