

ing all nations together in cooperation on furthering the scientific and cultural greatness of mankind. This requires that we break with the current, bankrupt world monetary system of free trade.

“The 1933 Glass-Steagall Act, separating and protecting all legitimate banking assets from their rotten gambling notes, must be reenacted, to stop the bailout, and ensure sovereign control over domestic affairs and improvements. The cartel arrangement between the Inter-Alpha Group of banks and corporations, known as the British Empire, has bankrupted itself, and the nations of the world must not destroy themselves to bail it out. Obama is a psychotic puppet of this empire, and must be removed now, by invoking the 25th Amendment, Section 4, of the U.S. Constitution.

“Once liberated from the shackles of monetarism, we must fulfill our role as creative beings in our Solar System, by launching the greatest scientific and technological projects ever conceived by mankind, to engineer and terraform the Biosphere; exert dominion over the Periodic Table on behalf of mankind, with technologies of nuclear fusion; and explore and colonize our Solar System. This will provide a real sense of mission and purpose for our youth, imbuing in them a sense of self-worth, from the joy that comes by contributing to the betterment of our country and its posterity.

“So, the decision to act in joining me in this fight, is yours. There can be no compromise with pessimism. If we are to survive, we must destroy the pessimism and demoralization which has gripped our population, with the power of profound ideas. March on, and we shall gain the victory. March on, and we shall gain the day. *Independence Forever!!!*”

Fighting Words Launch Campaign for Congress

Dec. 16—LaRouche Democrat Rachel Brown, who inspired tens of thousands of Massachusetts voters, and gave corrupt Rep. Barney Frank the run of his life last November, today declared her candidacy for that seat, recalling President Franklin Roosevelt’s courageous,

optimistic leadership during some of the darkest days of the last century.

Here are her words.

“‘We have nothing to fear but fear itself,’ are the well-known words of President Franklin Roosevelt; but do we really understand what he meant? After having elected another slate of Congressmen out of hatred rather than support for a real policy, now the population, and Congress members themselves, are demoralized; they are pessimistic about our chances of winning the big, crucial fights. This is the type of pessimism which is crippling. This is the factor which allows a nation which could otherwise overcome present challenges, to fail.

“LaRouchePAC, and our three candidates, including myself, are not going to allow our citizens to become demoralized, because there are clear solutions, and they are embedded in our nation’s history. Now is the time, to start acting like an American again. Today is the anniversary of the Boston Tea Party. Remember the tea of the British East India Company, which we calmly refused to accept? Remember the non-importation of British goods, beginning in 1768? We understood then, what the crucial issue is, now. National sovereignty must be defended.

“Glass-Steagall and NAWAPA are the way out. Glass-Steagall is the only way to wipe the worthless speculative debt obligations off of our nation’s books.

NAWAPA, the North American Water and Power Alliance, will revitalize our productive economy and provide scientific challenges to stimulate our levels of technology and understanding. Through large-scale transformation of the Biosphere, weather, and atmospheric conditions, NAWAPA will allow mankind on Earth to begin interacting self-consciously with extra-terrestrial cosmic radiation, and improve the planet for a long time to come.

“If we don’t do this, we know what will happen. The Eurozone could collapse by Christmas, either by the default of the debt of Spain, the refusal of Germany and France to consent to the establishment of a “euro-bond,” Irish resistance to a bailout of British banks, or any number of other weak points; and this will set off a global chain-reaction collapse. We are already experiencing the effects of the cuts related to the bailout of this speculative debt in our cities across the nation. The Boston School Board voted last night to close or merge 18 schools, and 73% of cities and counties surveyed have reduced public health support in the last six months.

“Now is a time when we must rise to a new level as a nation; to take advantage of the crisis, to make even greater advances in our conception of economy. For these reasons, I am declaring my intent to run again for office in the 4th Congressional District of Massachusetts in 2012.

“I will be re-establishing a website in coming weeks, but be sure to stay on the LaRouchePAC.com website daily. Join the fight, and contribute!”

‘For Their Deeds Do Follow Them’

Dec. 18—Summer Shields, the former Democratic write-in candidate against Nancy Pelosi in the November 2010 elections, today issued the following open letter to the citizens of the 8th District of California (San Francisco), and beyond, in which he announced his new campaign for Congress.

Summer Shields’ write-in campaign against House Squeaker Nancy Pelosi let voters in California’s 8th CD know that there was an alternative: Now, he intends to press for victory.

Dear Citizen,

Do not let that horrible aftertaste in your mouth, caused by the recent mid-term election, become the pessimism that creates your own self-inflicted doom. Pessimism under these circumstances of economic collapse and war is not only the most deadly response to this misfortune—it is downright suicide! If you are wise, you don’t fight for your immediate self-interests; you fight for the beautiful future that you may never even experience yourself.

The story is told that a quartet of string players working through the last compositions of Beethoven, in his presence, came to a stop partway through a piece, and when the now-deaf composer looked up from conducting, and saw that they had stopped, they told him that they could not continue, for they did not understand what they were playing. He responded: “It is no matter, keep playing, for I composed these pieces not for the present, but for a future age.”

Today, the fight we must wage is simple and clear—yet, it is one of the most difficult things to do, precisely because it contains within it that same principle of the future that Beethoven lived for.

The first step: Get rid of this stinking British monetary system once and for all, by reinstating Glass-Steagall. Clean out our banking system by simply tossing out the worthless debt in the form of speculative derivatives, and return, once and for all, to Alex-
