

GLOBE: The New Face of Fascism

This leaflet by the Citizens' LaRouche Movement of Mexico (MOCILA) was distributed in both Spanish and English at the Global Legislators Organization for a Balanced Environment (GLOBE) conference in Mexico City on June 6-8:

The LaRouche Citizens Movement calls upon the legislators meeting in this hall to distance themselves on moral grounds from the neo-colonialist “green” agenda of the supranational organizations, spokesmen and representatives of the British Empire’s foreign policy, whose agenda is premised on an ideology created and promoted by imperial think-tanks going back to the infamous Thomas Malthus; organizations such as the World Wildlife Fund (WWF), founded by Prince Philip of Edinburgh¹ and Prince Bernhard of the Netherlands², and the Global Legislators Organization for a Balanced Environment (GLOBE), an organization “founded on the initiative of former U.S. Vice President Al Gore³ and Senator John Kerry, in 1989, to respond to the challenges of climate change.”

What drives this “urgent need” to combat “climate change,” are policies which, under the guise of environmentalist ideology, have been launched against nation-states, with the purpose of stripping them of their sovereignty by co-opting their institutional representatives, brainwashing them with talk of anthropogenic climate change, whose scientific validity is dubious, since there is still a debate on the real causes of those changes. There is simply no scientific evidence that CO₂ is responsible for climate change. There is only rhetoric reminiscent of Joseph Goebbels’ maxim: “Repeat a lie a thousand times and it will become the truth.”

On the pretext of “climate change” and “sustainability,” GLOBE, in its analysis of Mexico’s National

Energy Strategy, 2013-2027,⁴ dares to question Mexico’s prioritization of economic growth and energy inclusion: “The National Energy Strategy sent to Congress establishes two Strategic Objectives: 1. Viable economic growth for Mexico; and 2. Access to high-quality energy services for the whole population. The pivotal point of environmental sustainability is left out, giving priority to cost and economic growth.”

It is astonishing that a body made up of elected public officials would lament that a country decided to give priority to economic growth and that all its population should have access to energy. Since when is the goal of social progress a problem? Members of Congress of any nation should be ashamed to belong to such an immoral organization, or any such organization opposed to progress and in favor of depopulating the planet. Congressmen and -women should remember that they represent an institution which has true moral weight, the nation-state, which is based on the principle of the welfare of its citizens, which they promised to defend, rather than some supranational “body” following the orders of British colonialism.

Low Energy Density and Genocide

What lies behind the policies disguised as “mitigation and adapting to climate change” pushed by supranational environmental organizations, is what is known as “Malthusianism.” This has become state policy globally in two ways: 1. brutal campaigns against population growth; the premise was adopted that we ourselves are pollutants; and 2. policies that pressure nations to reduce their energy density by using “renewable energies,” making them incapable of meeting the basic necessities of energy, water, food, and jobs (inalienable human rights consecrated in many constitutions), and condemning us to a desolate future.

GLOBE is connected to “Natural Capital,” which in the document titled “Natural Capital of Mexico,” attacks Norman Borlaug’s Green Revolution which so benefitted Mexico, arguing that “the Green Revolution, whose effects permitted a notable increase in production; its environmental consequences, however, were very harmful because of the soil and water pollution generated by misuse of agrochemicals, and they are also inefficient energy systems.”

1. Who fervently wishes to be reborn “as a deadly virus, in order to contribute something to solve overpopulation.”

2. Card-carrying member of Hitler’s Nazi Party.

3. Whose mining interests, lifestyle, and inordinate enrichment from his “green” businesses relegate him to a very unacceptable moral level.

4. Notwithstanding the fact that the outlined energy policy is a smoke-screen, since the regressive energy reform hands over ownership of the assets upon which social development depends.

Facing the greatest food crisis that we have ever had, importing 50% of our food, these words sound like a death sentence for the millions of people who do not have food in our country. The only way to produce the food that we require is to build great infrastructure projects, such as the NAWAPA-PLHINO project, and reactivate the principles of the Green Revolution.

The New British Imperialism

These NGOs seek to eliminate the concept and implementation of progress which the world so badly needs at this moment of both financial and physical crisis. Under the guise of defending the environment, they hide their true intention: the elimination of the sovereignty and the productive capacity of nations. For the oligarchy, the solution to the crisis is for the majority of the population to simply disappear, using a campaign of merciless plunder of their resources based on the argument of “sustainability” and “green policies.” They convince nations not to make use of their own resources so that they don’t achieve their true potential; that is, old-style British colonialism with a “friendly” face.

What we have to do is not only produce a great quantity of energy, but also achieve a general dynamic of technological advance, based on rising energy-flux density. We must return to the idea that human beings are creative and have the ability to discover new laws and resources that break with the idea of limited resources.

We nations of the Americas do not deserve to have imposed on us green policies which damage human beings, with laws that limit growth and development, including even food production, because those who promote them argue that agriculture and livestock breeding harm the planet. This situation is already reflected in the climate change laws that the states of this Republic have approved, in order to meet the objectives of documents such as Agenda 21 and the Convention on Biological Diversity, which promote zero technological development, population reduction and impoverishment, and ecological reordering.

Mexico does not deserve this. Mexico deserves to grow, develop a flourishing agriculture to feed everyone, increase the use of nuclear energy, but above all, to be the author and architect of its own destiny, not a puppet of imperial forces, of greenie tin-hat princes who, from their thrones, would stop the progress of the continent and suck its blood for their own benefit.

Is de-carbonization good for the population? Should we return to rural primitivism, as some British foundations propose? Or do you actually agree with Jonathan

Porrit, the scientific advisor of former British Prime Minister Gordon Brown, that it is necessary to reduce the population of England from 60 to 30 million people, because humans contaminate the environment by exhaling CO₂? There are scientists, such as Dr. Eric Pianka, who in the name of “saving the planet,” propose to unleash a virus that will contribute to the elimination of 90% of the population. What groups will survive if these ideas are implemented? Let us remind you that the Nazis promoted a whole “scientific” theory about the supposed supremacy of the Aryan race.

Why should we listen to countries like Great Britain, which wish to de-carbonize the Americas? Should countries be the puppets of oligarchs such as John Selwyn Gummer, Lord Deben, the honorary president of GLOBE, who is also the director of the “sustainable” business enterprise Veolia UK, a clear conflict of interest?

We should tell the eugenicist oligarchs who promote their new empire in the Americas to get out, to stop promoting policies that corrupt the spirit of progress. Contrary to false scientific dogmas, we have the technology needed to transform this country, to build ecosystems and manage the planet’s environment for the good of mankind. History has shown us as much. Monarchs wish to have subjects; we democrats want citizens.

REVIVE GLASS-STEAGALL NOW!

“The point is, we need Glass-Steagall immediately. We need it because that’s our only insurance to save the nation.... Get Glass-Steagall in, and we can work our way to solve the other things that need to be cleaned up. If we don’t get Glass-Steagall in first, we’re in a mess!”
