## STOP THE FRAUD: EXONERATE LAROCHE!

*The following statement is being run as an ad by The LaRouche Organization in the Washington Times to greet the Congress and all who will have come into Washington, D.C. for the historic January 6 session of Congress.*

**The time has come for President Donald Trump to kick over the strategic chessboard.** At this late hour, nothing short of overturning the entire game-plan of the British financial oligarchy will be sufficient to win the war.

This is the only effective way to stop the monumental fraud of the 2020 U.S. Presidential election and the destruction of the Presidency itself. Taking the matter up to the Supreme Court, and mass peaceful protests by the American population, are all justified and useful, but will not be sufficient.

**To win the war, the entire game-plan of the British financial oligarchy must be overturned.**

That game-plan has included the removal of President Trump from the White House from the moment he assumed office four years ago, for the purpose of imposing a Green Global Reset of the economy which means wiping out the formerly industrial economies of the world (including the United States), and the genocidal depopulation of the underdeveloped sector through war, famine and pandemics—all for the purpose of maintaining Wall Street and the City of London's bankrupt financial system, with its \$2 quadrillion speculative bubble. Biden is their man for that job.

What immediate actions can President Trump take to overturn the strategic chessboard?

**1) President Trump can defy the vicious, lying anti-Russia and anti-China campaign,** and call up Russian President Vladimir Putin and say: "Look, we have a pandemic; we have a famine; we have an extremely dangerous strategic confrontation; and we have an unresolved financial crisis. Let's hold the UN Security Council permanent members (P5) summit meeting you proposed in January 2020, and do it immediately."

As Lyndon LaRouche repeatedly argued, such a combination of U.S. President Trump, Russian President Putin and

Chinese President Xi Jinping is powerful enough to sweep the bankrupt London-Wall Street financial system into oblivion, and move quickly to solve these crises. The entire world, which is watching events unfold in the U.S. with alarm, would rally behind such an endeavor.

**2) President Trump can immediately move to exonerate the American statesman Lyndon LaRouche, and pardon Julian Assange and Edward Snowden as well.**

Why LaRouche? Because Lyndon LaRouche (1922–2019) was for five decades the most controversial figure in American politics, feared by the British Empire like none other. LaRouche became a world-class threat to the power of the British Empire through his U.S. Presidential campaigns.

*The LaRouche case involves a broader range of deliberate and systematic misconduct and abuse of power over a longer period of time in an effort to destroy a political movement and leader, than any other federal prosecution in my time or to my knowledge.*

**—former U.S. Attorney General Ramsey Clark**

LaRouche led the fight against the genocidal looting policies of the Anglo-American financial establishment, and was responsible for the successful organizing of the Reagan-era Strategic Defense Initiative in 1982–83. They fabricated criminal charges against him in the late 1980s and sent him to federal prison for five years — for crimes he never committed.

**Trump was slammed by the same apparatus that railroaded the innocent LaRouche into prison.** In fact, Robert Mueller himself was one of the leading figures in the prosecution and railroad of LaRouche over 30 years ago, as was the Boston banker William Weld. On Sept. 1, 1995, in historic remarks to the Martin Luther King Tribunal, LaRouche issued a stern warning that echoes down through the decades:

Until we remove, from our system of government, the rotten, permanent bureaucracy which acts like contract assassins, using the authority of the justice system to perpetrate assassination, this country is not free, nor anyone in it.
