

Diane Sare: A Most Prescient Warning of Assassination Threats

In the July 4, 2024 edition of *New York Independent U.S. Senate candidate Diane Sare's campaign newspaper, New Federalist*, strikingly prescient comments about the security dangers facing presidential candidates Robert F. Kennedy, Jr. and Donald Trump were published, under the title "Sare Warns of Possible Threat to Trump." We reprint that article in full here for its obvious relevance following the July 13 attack on Donald Trump.

July 1—In the wake of the June 27 presidential debate where Biden's dementia could no longer be hidden, and the recent Supreme Court ruling granting former President Donald Trump Presidential immunity, well-placed intelligence sources report that the anti-Trump extremists within the U.S. political establishment are becoming increasingly desperate to prevent Donald Trump's reelection by any means necessary, including possible assassination.

Donald Trump is one target of the "rules-based order" dictators' international assassination bureau.

The July 4 issue of *The New Federalist*, with Sare's prescient July 1 warning of a possible assassination against former President Donald Trump.

Independent candidate for U.S. Senate from New York Diane Sare said today that she takes this possibility "very seriously, especially after the assassination attempt two months ago against Slovakian Prime Minister Robert Fico." She said, "They may fear that Trump would be freer in a second term, not having to worry about running again." She also expressed concern about the security of independent Presidential candidate Robert F. Kennedy, Jr., who has repeatedly been denied Secret Service protection by the Biden White House. "Harm to any presidential candidate would cause chaos inside the United States," Sare stated.

She said that Trump's rejection of the British imperial agenda, as when he pulled the United States out of the Paris Climate Accord, and now his publicly stated view that it was NATO and the West which provoked Russia's actions in Ukraine, stating truthfully that Ukraine "is not winning this war" and that he could "end the

war in a day,” has provoked hysteria among the global elites who are depending on these policies of war and depopulation to keep their system together. In addition, Trump has repeatedly said that he questions the purpose and need for the NATO alliance, and has hinted that he would be willing to pull U.S. support from NATO. Most importantly, he has said that he sees no reason why he cannot sit down with both President Vladimir Putin of Russia and President Xi Jinping of China, “both who know me and respect me,” to work out problems and “deals.” That he might do that terrifies sections of the global elite.

“Both former President Trump and RFK, Jr. have correctly placed the blame for the destruction of Ukraine on the NATO/U.S./UK provocations going back to the Maidan coup of 2014, which was overseen by then-Vice President Joe Biden. I agree with them in this regard, and it’s no accident that all three of us are

“Since the assassination of President John F. Kennedy and the Warren Commission cover-up, a treasonous element within the United States has sought to control who is allowed to run for President, and what they are allowed to say. Telling the truth about the Ukraine war, and calling for talks with Putin to end it, puts Trump’s life in jeopardy,” said Sare, “especially since the majority of the American people are weary of war and would tend to support an initiative to end it. This is the burning issue of the 2024 election.”

“Trump’s adversaries realize Trump is not likely to be stopped by all of Biden’s legal attacks,” Sare continued. “This is why I fear more desperate measures. The way they described Slovakian Prime Minister Fico as a ‘populist’ reminded me of the way they talk about Trump, and the claims that Trump is ‘so divisive,’ with so many people ‘hating’ him, sets up a ‘lone assassin’ type operation. It would rip the country apart, were Trump to be killed, which may be what some people want: to move for a real military-run police state.”

“I would urge former President Trump to take precautions. By speaking now, and indicating the actual reason for the threat, I hope to make it more difficult for those forces who might try something like this to believe they could get away with it. I make this warning, not because I am supporting a particular candidate for the Presidency, but to protect the people of this nation, and the integrity of the electoral process.”
